

**Regulations for admission to the Masters' Projects at the Department of Pharmaceutical Technology and Biopharmaceutics Jagiellonian University – Medical College in Kraków.
Drug Discovery and Development**

1. Enrollment for Masters' Projects at the Department of Pharmaceutical Technology and Biopharmaceutics Jagiellonian University – Medical College is carried out electronically via the e-mail box tpl@uj.edu.pl. Students are required to send e-mails from their e-mail boxes assigned in the USOS system.
2. Enrollment is accepted only within the period and limits of places designated by the Dean of the Faculty for each field of study
3. Students are qualified for admission to their Masters' Projects on the basis of ranking lists prepared separately for each field of study.

The basis for the preparation of student ranking lists is the score calculated as the sum of student achievements:

- average grade from the 1st year of study,
- activity in scientific work carried out at the Department of Pharmaceutical Technology and Biopharmaceutics Jagiellonian University – Medical College (research groups, volunteering)

4. The decision on admission to the Masters' Projects in a given academic year is sent to the e-mail address assigned to the student in the USOS system.
